Plan for Students' Return Home

Five local students transitioning in 2013 from long term residential school placement will have the opportunity to live self-directed lives in a new community based residential program to be developed by Crystal Run Village, Inc. that will maximize their independence as adults. The agency was notified by the Hudson Valley Developmental Disability Services Office today that its plan of support proposal has been accepted. The young adults will also participate in person-center day services for valued and productive citizenship experiences through the agency's Open Vistas Day Habilitation program.

Crystal Run Village has been serving children and adults with developmental disabilities, spectrum disorders and those dually diagnosed with a mental illness since 1959, first as a summer camp and then as a residential school. Today, the agency's service delivery network is extensive and includes: Supervised Group, Individual and Supportive Residential Opportunities in the Community; Day Habilitation; Service Coordination; Educational and Vocational Services; Job Placement; Respite House; Community Habilitation; In-home Respite Care; HUD Supportive Housing for Families; Supportive Case Management; Invisible Children's Project; Shelter Care Plus, and Community Development for the Homeless. The agency offers an array of programs in Orange, Sullivan and Rockland Counties.
